THE WAY TO BUY THE BEST FOR THE MONEY, is to buy at the Office

as you can in buying your dry goods.

When you buy a Domestic or Now; Home you get the best. All other makes called New High Arm machines are imitations, and none are their peers. The Domestic and New Home have new styles of woodwork, and new sets of Attachments that others dore not use. Come and see for yourwork, and new sets of Attachments that others dare not use. Come and see for yourselves and you will be convinced that the above is reliable, and if you have a Domestic or New Home that has been in use from 10 to 20 years do not let them humbug you with their so-called new high arm machines, and trade you out of it, which they will try to do, but bring your machines to me and I will put in the new Domestic or New Home Improvements, then you will have a better machine and one that will last longer than the high arm imitation ast longer than the high arm imitationes, and save your money and have the best machine in the world. attack as those affecting the throat and lungs; none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or anconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and long diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. "In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Ayer's Cherry Pectoral, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the Chirry Pectoral had saved my darling's life. Can you wonder as our gratitude? Sincerely yours,

MRS. ENNA GEDNEY."

(Conditioned from last week.) How Watch Cases are Made

It is a fact not generally known that the James Boar Gold Watch Cases really contain more pure gold than many "solid" gold cases The demand for these watch cases has led to the manufacture of a very poor grade of solid gold watch cases-low in quality, and deficient in quantity. These cases are made from 4 to 10 karsis, and a 5 or 6 karat case is often sold for 12 or 14 karata. It is nor economy to buy a watch case so poor in quality that it will soon lose its color, or one so soft that it will lose its shape and fail to shut tight, thus letting in dust and damaging the works, or one so thin that a slight blow will break the crystal, and perhaps the movement. It IS economy to buy a James Boar Gold Watch Case, in which NONE of these things ever occur. This watch case is not an esperi-
